

Watermelon Mini Love F1
AAS Edible Winner

This personal-sized Asian watermelon is perfect for smaller families and smaller gardens. Shorter vines (3-4') still produce up to six fruits per plant and can be grown in smaller spaces. Several judges commented on the crack and split resistant rinds, important for reducing crop loss. For culinary purposes, this deep red fleshed watermelon has a thin but strong rind that can be carved into attractive shapes for fruit salad presentations. Mini Love has a high sugar content resulting in sweet and crisp, juicy flesh that will be a true summer delight for watermelon lovers.

AAS® Winner Data
