

Broccoli Artwork F₁ AAS Edible Winner

Artwork is a unique and beautiful dark green stem broccoli that has only recently become available to home gardeners. Previously, stem or baby broccoli was exclusively available in gourmet markets and up-scale restaurants. Now home gardeners can make the art of gardening come alive with this delicious, long-yielding variety. Artwork starts out similar to a regular crown broccoli but after harvesting that first crown, easy-to-harvest tender and tasty side shoots continue to appear long into the season, resisting warm temperature bolting better than other stem broccolis currently on the market.
