

Ornamental Pepper
'Black Olive'
AAS Flower Award Winner

The AAS Judges said this entry was a standout, especially in the southern gardens where heat was a major presence. All season long this beauty kept its upright habit with nicely draping leaves and dark purple/black fruit which appeared in small clusters along the stems. As summer progresses, the fruits mature to red giving a beautiful contrast against the dark purple foliage. This multi-use ornamental works as a 20" border plant, a great color splash for containers or as a cut flower in mixed bouquets.
