

Tomato, cocktail Red Racer F1
AAS Edible Winner

Red Racer, a cocktail size tomato, produced small, uniform fruits with great taste in the AAS Trials. Cocktail tomatoes have a good sweet/acid balance and are a smaller variety tomato (although larger than cherry or grape tomatoes). These tomatoes are uniform in size and mature as a cluster of fruits. The compact determinate plants produced a huge yield 7-10 days earlier than the comparisons and are ideal for small space and container gardens. One judge summed up this winner saying "Red Racer is small in size but big in taste!"

AAS® Winner Data

Genus species: *Solanum lycopersicum*

Common name: Cocktail tomato

Fruit size: 1.5 inches

Fruit shape: Round

Fruit color: Tomato Red

Plant type: Annual

Plant height: 3 feet
