Pepper Chili Pie F1
AAS Edible Winner

A unique miniature bell pepper that is mildly hot when fruits turn red. These peppers are compact, easy to grow and adapt well to container or small garden planting. Another plus is their dark green foliage and ability to set fruit even under hot humid conditions. Each plant yields 25 to 30 fruit and can be eaten fresh or cooked. “A word to the wise,” cautioned one judge, “plant these opposite side of your garden from your sweet bells – I only absentmindedly confused the two once!”

AAS® Winner Data

Genus species: *Capsicum annuum*
Common name: Pepper
Fruit size: 2 inches by 2.5 inches
Fruit shape: Bell
Fruit color: Green or red
Plant type: Annual
Plant height: 18–32 inches
Plant habit: Upright
Garden location: Full sun
Garden spacing: 2-3 feet apart
