

Pea Patio Pride
AAS Edible Regional Winner
Region: SE

This compact beauty produces sweet, uniform pods that are very tender when harvested early. With only 40 days needed to maturity, Patio Pride can be one of your first spring harvests or one of the last fall harvests from your Southeastern garden! This pea is wonderful when planted in containers and is ideal for succession planting yielding a consistent harvest over many weeks. Plant in patio containers with cool-season flowers for a beautiful combination ornamental and edible display. Direct seeding is recommended; seed 3-4 seeds every 6 inches then thin to one seedling every 6-8 inches.
