

Cucumber Saladmore Bush F₁
AAS Vegetable Regional Winner
(Southeast)

Saladmore Cucumber boasts a bush-type growth habit making this AAS Winner perfect for growing in container gardens. Anyone looking for a good slicing type cucumber with dark green skin and long straight fruits will enjoy this beauty, along with its superior taste and texture; a perfect reflection of summer's bounty. An added bonus is the disease resistance that proved to be especially valuable in warmer climates where comparison varieties easily succumbed to late season diseases.

AAS® Winner Data

Genus species: *Cucumis sativus*

Common name: Cucumber

Unique qualities: This semi-bush vine sets sweet crisp cucumbers as long as you keep them picked. Good garden performance due to the multiple disease resistances. Has dual use, pick small for processing as pickles and harvest larger for fresh slices or spears.

Fruit size: 7-8 inches

Fruit color: Dark green

Plant height: 24-26 inches

Garden location: Full sun

Garden spacing: 24 inches

Length of time to harvest: 55 days from sowing

Closest comparisons on market: Fanfare F₁, Salad Bush, Bush Champion

Disease tolerances: CMV, Scab, Anthracnose, PM tolerance

Fruit shape: Tapered, cylindrical

Plant type: Annual

Plant width: 24 inches
