Cucumber Saladmore Bush F_1
AAS Vegetable Regional Winner (Southeast)

Saladmore Cucumber boasts a bush-type growth habit making this AAS Winner perfect for growing in container gardens. Anyone looking for a good slicing type cucumber with dark green skin and long straight fruits will enjoy this beauty, along with its superior taste and texture; a perfect reflection of summer's bounty. An added bonus is the disease resistance that proved to be especially valuable in warmer climates where comparison varieties easily succumbed to late season diseases.

AAS® Winner Data

Genus species: *Cucumis sativus*
Common name: Cucumber
Unique qualities: This semi-bush vine sets sweet crisp cucumbers as long as you keep them picked. Good garden performance due to the multiple disease resistances. Has duel use, pick small for processing as pickles and harvest larger for fresh slices or spears.
Fruit size: 7-8 inches
Fruit shape: Tapered, cylindrical
Fruit color: Dark green
Plant type: Annual
Plant height: 24-26 inches
Plant width: 24 inches
Garden location: Full sun
Garden spacing: 24 inches
Length of time to harvest: 55 days from sowing
Closest comparisons on market: Fanfare F_1, Salad Bush, Bush Champion
Disease tolerances: CMV, Scab, Anthracnose, PM tolerance
