

Geranium 'Pinto™ Premium White to Rose' F1
AAS Bedding Plant Award Winner

This addition to the Pinto™ Premium series is a must-have! Not only is the flower coloration of white changing to rose unique and beautiful but the numerous 5" blooms are long-lasting and slightly earlier than similar varieties. Our judges like how full and dense the plants are with well-branched stems sporting leaves with beautiful dark green zone coloration. The 2012 trials were tough because of extreme heat but 'Pinto Premium White to Rose' performed extremely well making it a great choice for landscapers or gardeners wanting a carefree, colorful summer garden.
