

Kohlrabi Konan F₁
AAS Edible Winner

Been meaning to try kohlrabi in your garden? Our new AAS Winner Kohlrabi Konan F₁ is the perfect choice for first-time kohlrabi growers as well as those kohlrabi die-hards. Konan was selected for its smooth, globe-shaped bulbs that can grow up to 6" in diameter and are the perfect upright size and shape for container gardening and garden plots. The upright, uniform leaves resist insect damage meaning the plant stays healthy all season long. Of course, the best part is the sweet flavorful bulb that has an excellent texture making it easy to slice and dice. It's time to try kohlrabi!
