

Pumpkin Super Moon F₁
AAS Edible Regional Winner
Regions: GL, SE

Love the look of white pumpkins for your fall holiday décor? Then you will love our first-ever white pumpkin AAS Regional Winner Super Moon F₁. Our judges loved the nice, eye-appealing ghostly white coloration on the large, blemish-free round pumpkins. Grown for their size, up to 50 lbs, and their clean white color, these hardy plants are known for their early fruit development and vigorous growth. Their stems are tough, hardy, disease-resistant and unstoppable! When done decorating with these beauties, consider trying the yellow flesh for roasting or in your fall harvest soups.
