

**Salvia Summer Jewel White**  
**AAS Bedding Plant Winner**

A third color in the popular Summer Jewel series, white brings a much-needed color to compact salvias. This dwarf sized, compact plant has a prolific bloom count throughout the summer. As a bonus, the blooms appear almost two weeks earlier than other white salvias used as comparisons. Judges noted how the bees, butterflies and hummingbirds loved the larger flowers, making it perfect for a pollinator garden. Because of the compactness and number of flowers, Summer Jewel White is great for large landscaped areas, as well as containers and small beds.
