

Tomato Candyland Red
AAS Edible Winner

Tomato Candyland Red is the only AAS award winning currant-type tomato. Currant tomatoes are smaller in size than cherry-type and are ready to “pop” in your mouth straight from the garden. Gardeners will appreciate the dark red, sweet flavored fruit that can be enjoyed throughout the season. The tomato plant itself has a nice tidier habit than other currant-type plants with the fruit tending to form on the outside of the plant making them easier to harvest.
