

Pepper 'Cayennetta'
AAS Vegetable Award Winner

'Cayennetta' is an excellent tasting mildly spicy pepper that is very easy to grow, even for novice gardeners. This 3 to 4-inch chili pepper yielded bigger fruits from a very well branched upright plant. It required no staking which would make it a perfect plant for container or patio gardens. Unique to this variety is that it has good cold tolerance as well as dense foliage cover to protect the fruits from sun scorch and it handled extreme heat very well. This pepper is an all-around good choice no matter where you're gardening. Market growers will benefit from the heavy yield and prolific fruit set from each plant. Everyone will love the excellent pepper flavor that outshone all the comparison varieties. Bred by Floranova Ltd.
