Sunny gold faces charm people gazing at ‘Skippy XL Plum-Gold.’ The flowers are uniquely designed with plum shades surrounding the golden centers (face), which contain radiating black lines affectionately called whiskers. The blooms are small, about 1-1/2 inches, but are not to be underrated. The number of blooms produced more than makes up for the size. ‘Skippy XL Plum-Gold’ won the AAS Award for its ability to grow a lavish number of blooms. In the North, plants can be expected to bloom beginning with spring to the heat of summer. In the South, a fall planting may provide flowering golden faces throughout the winter. The petite plants growing 6 to 8 inches tall and wide are highly recommended for combination planters. Gardeners can rely on ‘Skippy XL Plum-Gold’ to provide abundant blooms whether growing in containers, window boxes, an annual or perennial garden. ‘Skippy XL Plum-Gold’ may be a perennial in southern regions. ‘Skippy XL Plum-Gold’ was bred by Kieft Seeds Holland.

**AAS® Winner Data**

**Genus species:** Viola cornuta  
**Common name:** Viola  
**Unique qualities:** Color combinations, vigorous and floriferous, flower size  
**Flower color:** Plum shades with golden center
