

**Pepper Hungarian Mexican Sunrise F1**  
**AAS Edible Regional Winner**  
**Regions: SE and M/SW**

Mexican Sunrise Hungarian Pepper F1 brings to the garden a full spectrum of colors from lime green to yellow then orange and red as the fruit matures. These earlier maturing conical pendant shaped peppers produce a thick walled fruit that can be eaten at any stage. The fruits are semi-hot, attractive peppers which can be used for ornamental purposes as well as for processing, pickling and fresh preparations. Vegetable gardeners are sure to enjoy this pepper with its attractive fruit, early maturity and high yielding plants that look great in any gardenscape.
