

Marigold Big Duck Gold F1

QUACK! There's a new marigold in the pond! Big Duck Gold sports very large golden-yellow flowers that continue blooming throughout the season, much longer than others. These marigolds begin the season putting energy into establishing a solid, healthy plant with clean, deep-green foliage. Then, when it starts blooming, watch out! Full, "plump" blooms top the 15" plants and continue blooming through the end of the season. You'll want to use these marigolds everywhere: in beds and containers; in landscapes as mini hedges, back of the border plants, or even as a filler in perennial beds.

AAS® Winner Data
