

Pea Snak Hero

Slender 4" long pods have the straight and elongated appearance of a succulent green bean but the surprising taste and texture of a snap pea. Snak Hero is so super-sweet and delicious it would be no surprise if they never make it to the kitchen! Stringless, edible pods are perfect for healthy, garden fresh snacking, stir-frying, or freezing for later. 18-24" vines can be grown with or without support and are perfect for patio containers or hanging baskets. Frequent harvesting can easily bump up production for a long, substantial harvest window. Peas are a great early-season crop as they can be planted when soil temperatures are above 45 degrees F.

AAS® Winner Data

Genus species: *Pisum sativum*

Common name: Pea

Fruit size: 4 inches, sieve size 4/5
