Zinnia Holi Pink F1

AAS Judges in the Southeast really liked this variety because of the vibrant pink color that doesn't fade. The size and number of blooms, as well as the disease resistance, were superior to the comparisons. The Holi series is bred to keep producing fresh, colorful blooms all season long, even through heat, humidity, and drought. Holi is perfect for home gardeners and landscapers alike since it produces during a long window of time and only needs minimal maintenance, such as occasional dead-heading.
