Celosia Kelos® Candela Pink

Across the board, the judges loved the bright pink blooms that rose above the foliage, almost like a tall, tapered candle! Unique, showy plumes of pink flowers kept their color all season long and the judges agree that this is a perfect filler plant to add height and interest to a combination container planting. But it is also useful in mass plantings, borders, and general garden use. Another added bonus: it works as a dried flower.

AAS® Winner Data
