

## Tomato Pink Delicious

“Delicious” in its name, it has to be good! This early maturing tomato supports the trend of having heirloom look, flavor and texture with hybrid disease resistance and improved germination meaning it is much easier for home gardeners to grow. When grown next to the comparisons, this variety is definitely earlier with a higher yield and a very uniform fruit size. The beautiful big fruits do not crack as much. What really sets this variety apart is the excellent flavor and a high Brix for a sweeter than normal pink tomato. Bonus: Much better disease resistance than controls in both the Southeast and Heartland regions.

### **AAS® Winner Data**

**Genus species:** *Solanum lycopersicum*

**Common name:** Tomato

**Fruit color:** Pink

**Fruit size:** 11-ounce beefsteak tomato

**Plant height:** 6 feet, staking required

**Plant spread:** 3 feet

**Plant habit:** Upright, climbing

**Garden location:** Full sun

**Garden spacing:** 3 feet

**Length of time to harvest:** 114 days from sowing, 84 days from transplant

**Closest comparisons on market:** Brandyman, Heirloom Marriage Big Brandy

**Tested Nationally & Proven Locally®**
