

Verbena bonariensis Vanity

It's not every day we see a new variety of a classic cottage garden plant but Vanity is one to wow! Not only does this type of verbena create a pollinator paradise in your garden, but also the compact habit makes it sturdier and easier to maintain. Deep blue/purple flowers are 1-1.5" across and continue to attract butterflies day in and day out. Vanity prides itself on performing well in hot dry conditions while remaining a showy garden plant. Once you try Vanity, you will feel the same as the AAS judge who stated: "This entry was my favorite in all of this season's entries!"
