

Coleus Main Street Beale Street

The first-ever coleus to be named an AAS Winner! Main Street Beale Street coleus is an outstanding variety exhibiting deep red foliage that holds its color extremely well in the garden. The rich color doesn't fade, bleach or get spotty as the season moves into late summer. The lush, bushy plant grows uniformly and as a huge bonus, does not flower until very late in the season – up to 6 weeks later than the comparisons! A unique feature of this coleus is that it can be successfully grown in full sun to full shade, making it an ideal foliage item for anywhere in the garden. Growers, retailers, landscapers and homeowners will all appreciate the beautiful color and uniform height of this coleus.
