

Celosia Burning Embers

Burning Embers is a new celosia bred for its gorgeous bronze foliage with dark pink veins that contrast nicely with the vibrant pink flower plumes. Plants are well branched and produce more flowers over a longer bloom time. Numerous AAS Judges commented that this entry had the largest and longest lasting flowers of all the celosia varieties they trialed. Plus, Burning Embers does very well in both heat and humidity while remaining completely covered with blooms that withstood the test of time.

AAS® Winner Data
