

Squash Thriller F1

EEK! No evil lurking here! Bring a thrill to your garden with this All-America Selections Winner. Thriller squash brings new psychedelic color patterns to your fall décor. The 1-2 pound dumpling squash have shallow vertical ridges that alternate between a variegated cream and green with bright orange. The dark green stems are decoratively twisted and well attached. The semi-bush plants mature in 75-80 days from planting. The fruit colors shift and change as they mature for early to late season color. Judges across the US and Canada agree that Thriller is unique, well-adapted, and easy to grow.
