

Impatiens interspecific Solarscape® XL Red Glow F1

Sun or shade, Solarscape® XL Red Glow delivers top-tier performance. It thrives in full sun while offering excellent shade tolerance, much like its predecessor, prior AAS Winner Pink Jewel. This variety stands out in the garden with showstopping, iridescent red blooms and a glowing violet center that brings striking tropical color to any landscape. True to its "XL" name, it grows roughly 20% larger than standard Solarscape varieties.
